

PRODUCT DATA SHEET

BEL-RAY® V-TWIN SEMI-SYNTHETIC MOTOR OIL

Bel-Ray V-Twin Semi-Synthetic Motor Oil is a synthetic blend multi-grade engine oil formulated to meet the specific demands of large displacement V-Twin engines. It combines the benefits of fully-synthetic oils with the lower cost of petroleum oils.

Applications

- ◆ Offers a superior level of protection at high loads and temperatures typical in V-Twin engines
- ◆ Use in all V-Twin engines where value priced superior protection is desired
- ◆ Cost-effective all-climate protection

Features and Benefits

- ◆ Superior engine protection Exclusive Bel-Ray anti-wear chemistry reduces bearing and valve train wear and keeps pistons and rings from scuffing.
- ◆ Lower oil consumption Its flash point is higher than standard petroleum based oils which limits oil burn-off to lower oil consumption and keeps hot engines protected.
- ◆ Increased horsepower Features high polarity synthetic base oils which provide minimum friction for increased power.
- ◆ Superior deposit control Removes deposits, dissipates heat and lowers friction to reduce engine operating temperature.
- ◆ Good value Offers many of the benefits of **Bel-Ray V-Twin Synthetic Motor Oil** but at a more economical price.

General Description

Bel-Ray V-Twin Semi-Synthetic Motor Oil provides shear and oxidation stability, superior anti-wear and deposit control for premium lubrication performance and engine protection. It is equally suitable for air or liquid cooled engines. **Bel-Ray V-Twin Semi-Synthetic Motor Oil** meets or exceeds V-Twin requirements and WILL NOT void warranties.

Product No.

96910

SAE Grade

20W-50
